(Exact Name of Registrant as Specified in its Charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

75-2398532
(I.R.S. Employer
Identification Number)

6250 LBJ Freeway
Dallas, Texas 75240
(Address of principal executive offices) (Zip code)

(972) 387-3562
(Registrant's telephone number, including area code)

Not applicable
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act: None

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class	Outstanding at November 4, 2020
Common Stock, par value \$0.01 per share	46,852,669

Tuesday Morning Corporation
(Debtor-in-Possession)
Notes to Consolidated Financial Statements (unaudited)

The terms “Tuesday Morning,” the “Company,” “we,” “us” and “our” as used in this Quarterly Report on Form 10-Q refer to Tuesday Morning Corporation and its subsidiaries. Other than as disclosed in this document, please refer to our Annual Report on Form 10-K for the fiscal year ended June 30, 2020 for our critical accounting policies.

1. **Basis of presentation** — The unaudited interim consolidated financial statements included herein have been prepared by us pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. These financial statements include all adjustments, consisting only of those of a normal recurring nature, which, in the opinion of management, are necessary to present fairly the results of the interim periods presented and should be read in conjunction with the audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended June 30, 2020. The consolidated balance sheet at June 30, 2020 has been derived from the audited consolidated financial statements at that date. These interim financial statements do not include all of the information and notes required by GAAP for complete financial statements. For further information, refer to the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2020.

The accompanying unaudited interim consolidated financial statements include the accounts of Tuesday Morning Corporation, a Delaware corporation, and its wholly-owned subsidiaries. All entities of the Company were included in the filing of a voluntary petition (the “Chapter 11 Cases”) under Chapter 11 of the United States Bankruptcy Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the Northern District of Texas, Dallas Division (the “Bankruptcy Court”) and all entities are included in our consolidated financial statements, thus separate condensed combined financial statements of the entities in the reorganization proceedings are not required. All intercompany balances and transactions have been eliminated in consolidation. We operate our business as a single operating segment. Certain reclassifications were made to prior period amounts to conform to the current period presentation. None of the reclassifications affected our net loss in any period. We do not present a consolidated statement of comprehensive income as there are no other comprehensive income items in either the current or prior fiscal periods.

The results of operations for the three months ended September 30, 2020 are not necessarily indicative of the results to be expected for the full fiscal year ending June 30, 2021, which we refer to as fiscal 2021, due in part to the seasonality of our business and the financial impact of the COVID-19 pandemic, including bankruptcy proceedings, discussed further below.

The preparation of unaudited interim consolidated financial statements, in conformity with GAAP, requires us to make assumptions and use estimates that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The most significant estimates relate to inventory valuation under the retail method and estimation of reserves and valuation allowances specifically related to insurance, income taxes and litigation. Actual results could differ materially from these estimates. The COVID-19 pandemic has increased the difficulty in making various estimates in our financial statements. Our fiscal year ends on June 30 and we operate our business as a single operating segment.

COVID-19 Pandemic

The COVID-19 pandemic has had, and could continue to have, an adverse effect on our business operations, store traffic, employee availability, financial conditions, results of operations, liquidity and cash flow.

On March 25, 2020, we temporarily closed all of our stores nationwide, severely reducing revenues and resulting in significant operating losses and the elimination of substantially all operating cash flow. Stores gradually reopened as allowed by state and local jurisdictions, and all but two of our stores had reopened as of the end of the prior fiscal year. In the first quarter of fiscal 2021, we completed the permanent closure of 197 stores. The scope and duration of this pandemic and the related disruption to our business and financial impacts cannot be reasonably estimated at this time. While we have taken actions to minimize costs, some of which are permanent including the closure of 197 stores and the planned closure of our Phoenix distribution center, and mitigate the related risks, there can be no assurance that these measures will continue to provide benefit or that they will be adequate to mitigate future changes in circumstances.

Voluntary Petitions for Reorganization under Chapter 11

On May 27, 2020 (the “Petition Date”), we filed the Chapter 11 Cases. The Chapter 11 Cases are being jointly administered for procedural purposes.

Significant Bankruptcy Court Actions

We will continue to operate our businesses as “debtors-in-possession” under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court. On May 28, 2020, at the first-day hearings of the Chapter 11 Cases, the Bankruptcy Court granted relief in conjunction with various motions intended to ensure our ability to continue our ordinary operations after the Petition Date. The Bankruptcy Court’s orders granting such relief, entered on May 28, 2020 and May 29, 2020, authorized us to, among other things, pay certain pre-petition employee and retiree expenses and benefits, use our existing cash management system, maintain and administer customer programs, pay certain critical and foreign vendors and pay certain pre-petition taxes and related fees. In addition, the Bankruptcy Court issued orders approving, among other things, (1) our entry into the Senior Secured Super Priority Debtor-in-Possession Credit Agreement (the “DIP ABL Credit Agreement”) among the Company, JPMorgan Chase Bank, N.A., as administrative agent, for itself and the other lenders, which provides for a super priority secured debtor-in-possession revolving credit facility in an aggregate amount of up to \$100 million (the “DIP ABL Facility”), and (2) our use of cash collateral in accordance with the terms of the DIP ABL Credit Agreement. See Note 3 to the Consolidated Financial Statements for additional information regarding the DIP ABL Facility.

These orders are significant because they allow us to operate our businesses in the normal course.

The Bankruptcy Court has issued orders designed to assist us in preserving certain tax attributes by establishing, among other things, notification and hearing procedures (the “Procedures”) relating to proposed transfers of its common stock and the taking of worthless stock deductions. The Procedures, among other things, restrict transfers involving, and require notice of the holdings of and proposed transactions by any person or “entity” (as defined by the applicable U.S. Treasury Regulations) owning or seeking to acquire ownership of 4.5% or more of the Company’s common stock. The Bankruptcy Court orders provide that any actions in violation of the Procedures (including the notice requirements) would be null and void ab initio, and (a) the person or entity making such a transfer would be required to take remedial actions specified by us to appropriately reflect that such transfer of our common stock is null and void ab initio and (b) the person or entity making such a declaration of worthlessness with respect to our common stock would be required to file an amended tax return revoking such declaration and any related deduction to reflect that such declaration is void ab initio.

On June 9, 2020, the Bankruptcy Court issued an order approving procedures for the closure of up to 230 of our store locations. In early June 2020, we commenced the process to close 132 store locations in a first wave of store closings. By the end of July 2020, all of these stores were permanently closed. In mid-July 2020, we began the process to close an additional 65 stores following negotiations with our landlords, and those store closures were completed in August 2020. In the first quarter of fiscal 2021, we recorded abandonment charges of \$4.8 million, related to our Phoenix distribution center closure plan. We expect to close our Phoenix, Arizona distribution center in the second quarter of fiscal 2021.

On July 10, 2020, in accordance with a final order issued by the Bankruptcy Court on July 10, 2020, we entered into a Senior Secured Super Priority Debtor-In-Possession Delayed Draw Term Loan Agreement (the “DIP DDTL Agreement”) with the Franchise Group, Inc. (the “Lender”). Pursuant to the DIP DDTL Agreement, the Lender agreed to lend us up to an aggregate principal amount of \$25 million in the form of delayed draw term loans (the “DIP Term Facility”). See Note 3 for additional information.

On September 23, 2020, the Company and its subsidiaries filed with the Bankruptcy Court a proposed Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code (the “Plan”) and a proposed Disclosure Statement in Support of the Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code (the “Disclosure Statement”) describing the Plan and the solicitation of votes to approve the same from certain of the Debtors’ creditors with respect to the Chapter 11 Cases.

On September 23, 2020, contemporaneously with the filing of the Plan and Disclosure Statement, the Company and its subsidiaries filed an expedited motion for entry of an order (1) approving sale and bidding procedures in connection with a potential sale of assets of the Company and its subsidiaries, (2) authorizing the sale of assets free and clear of all liens, claims, encumbrances and other interests, and (3) granting related relief (the “Bidding Procedures Motion”). The Company believes that the concurrent prosecution of a plan of reorganization and a court-approved process for bidding and potential sale of substantially all of their assets will allow the Company and its subsidiaries to assess the relative benefits of a plan of reorganization and a sale. The Bidding Procedures Motion provided that the Bankruptcy Court would consider approval of a sale of assets on October 29, 2020 if the Company determined to proceed with a sale of assets.

On October 26, 2020, the Company and its subsidiaries filed a motion with the Bankruptcy Court indicating the Company would not be seeking approval of a sale of assets on October 29, 2020. On October 26, 2020, the Company also filed a motion indicating the Company was working to make revisions to the Plan and Disclosure Statement and seeking to establish a hearing on November 9, 2020 for consideration of a revised Plan and Disclosure Statement. The Company reserved the right to continue to pursue a sale of assets if the Company determines that a sale of assets is in the best interests of the bankruptcy estate.

On November 4, 2020, the Company and its subsidiaries filed with the Bankruptcy Court a proposed Amended Joint Plan of Reorganization under Chapter 11 of the Bankruptcy Code (the “Amended Plan”) and a proposed Amended Disclosure Statement (the “Amended Disclosure Statement”) in support of the Amended Plan describing the Amended Plan and the solicitation of votes to approve the same from certain of the Debtors’ creditors with respect to the Chapter 11 Cases. The Amended Plan and the Amended Disclosure Statement contemplate the proposed financing transactions described in Note 13 below, including the transactions contemplated by the Purchase and Sale Agreement (as defined in Note 13), the proposed New ABL Facility (as defined in Note 13) and the proposed Rights Offering (as defined in Note 13). Pursuant to the proposed Amended Plan, in exchange for each existing share of the Company’s common stock, an eligible holder would receive (1) one share of the Company’s common stock and (2) a share purchase right entitling the holder to purchase its pro rata portion of shares available to eligible holders in the Rights Offering.

Information contained in the Amended Plan and the Amended Disclosure Statement, including the proposal to conduct a Rights Offering, is subject to change, whether as a result of amendments or supplements to the Amended Plan or the Amended Disclosure Statement, third-party actions, or otherwise, and should not be relied upon by any party.

De-listing

On May 27, 2020, the Company received a letter from the Listing Qualifications Department staff of The Nasdaq Stock Market (“Nasdaq”) notifying it that, as a result of the Chapter 11 Cases and in accordance with Nasdaq Listing Rules 5101, 5110(b) and IM-5101-1, Nasdaq determined that the Company’s common stock will be delisted from Nasdaq. On June 8, 2020, trading of the Company’s common stock on Nasdaq was suspended. On July 1, 2020, Nasdaq filed a Form 25 with the SEC to delist the Company’s common stock. The Company’s common stock now trades over the counter in the OTC Pink Market under the symbol “TUESQ”.

Going Concern

Our operating loss for the fiscal year ended June 30, 2020 was \$159.2 million, and our operating loss was \$16.5 million for the quarter ended September 30, 2020.

The COVID-19 pandemic and the resulting store closures severely reduced our revenues and operating cash flows during the third and fourth quarters of our fiscal year ended June 30, 2020 as well as the first quarter of fiscal 2021. As described further above, on May 27, 2020, we commenced the Chapter 11 Cases in the Bankruptcy Court. The filing of the Chapter 11 Cases constituted an event of default that caused our obligations under the Pre-Petition ABL Credit Agreement (as defined below in Note 8 “Debt”) to become immediately due and payable. We believe that any efforts to enforce such payment obligations under the Pre-Petition ABL Credit Agreement were stayed as a result of the filing of the Chapter 11 Cases, and the creditors’ rights of enforcement with respect to the Pre-Petition ABL Credit Agreement are subject to the applicable provisions of the Bankruptcy Code and the Bankruptcy Court orders modifying the stay, including the order of the Bankruptcy Court approving the DIP ABL Facility.

Although we are seeking to address any liquidity concerns through the Chapter 11 Cases, the approval of a plan of reorganization or the sale of all or substantially all of our assets is not within our control and uncertainty remains as to whether the Bankruptcy Court will approve a plan of reorganization or a sale of all or substantially all of our assets.

The consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The consolidated financial statements do not include any adjustments that would result if the Company was unable to realize its assets and settle its liabilities as a going concern in the ordinary course of business. We believe that our plans, already implemented and continuing to be implemented, will mitigate the conditions and events that have raised substantial doubt about the entity’s ability to continue as a going concern. However, due to the uncertainty around the scope and duration of the COVID-19 pandemic and the related disruption to our business and financial impacts, and because our plans, including those in connection with the Chapter 11 Cases, are not yet finalized, fully executed, or approved by the Bankruptcy Court, they cannot be deemed probable of mitigating this substantial doubt as to our ability to continue as a going concern.

Bankruptcy Accounting

See Note 2 entitled “*Bankruptcy Accounting*” for additional information regarding the Chapter 11 Cases.

Accounting Pronouncement Recently Adopted

In June 2016, the FASB issued ASU No. 2016-13, “Financial Instruments – Credit Losses (Topic 326)” (“ASC 326”), which makes significant changes to the accounting for credit losses on financial assets and disclosures. The standard requires immediate recognition of management’s estimates of current expected credit losses. We adopted ASC 326 in the first quarter of fiscal 2021. The adoption did not have a material impact to our consolidated financial statements.

Bankruptcy Accounting

The consolidated financial statements have been prepared on a going concern basis of accounting, which contemplates continuity of operations, realization of assets, and satisfaction of liabilities and commitments in the normal course of business and reflect the application of Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 852, “Reorganizations” (“ASC 852”). ASC 852 requires that the consolidated financial statements, for periods subsequent to the filing of the Chapter 11 Cases, distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of the business. Accordingly, certain expenses, gains and losses that are realized or incurred in the bankruptcy proceedings are recorded in reorganization items on our consolidated statements of operations. In addition, pre-petition unsecured and under-secured obligations that may be impacted by the bankruptcy reorganization process have been classified as liabilities subject to compromise on our unaudited interim consolidated balance sheet as of September 30, 2020.

As of September 30, 2020, these liabilities were reported at the amounts expected to be allowed as claims by the Bankruptcy Court. Where there was uncertainty about whether a secured claim would be paid or impaired pursuant to the Chapter 11 Cases, we classified the entire amount of the claim as an outstanding liability subject to compromise as of September 30, 2020. For specific discussion on balances of liabilities subject to compromise and reorganization items, see below. The accompanying consolidated financial statements do not purport to reflect or provide for the consequences of the Chapter 11 Cases. In particular, the consolidated financial statements do not purport to show: (i) the realizable value of assets on a liquidation basis or their availability to satisfy liabilities; (ii) the full amount of pre-petition liabilities that may be allowed for claims or contingencies, or the status and priority thereof; (iii) the effect on stockholders’ investment accounts of any changes that may be made to our capitalization; or (iv) the effect on operations of any changes that may be made to our business.

Liabilities Subject to Compromise

As a result of the Chapter 11 Cases, the payment of pre-petition indebtedness was subject to compromise. Generally, actions to enforce or otherwise effect payment of pre-bankruptcy filing liabilities are stayed. Although payment of pre-petition claims is generally not permitted, the Bankruptcy Court granted the Company authority to pay certain pre-petition claims in designated categories and subject to certain terms and conditions. This relief generally was designed to preserve the value of our businesses and assets. Among other things, the Bankruptcy Court authorized the Company to pay certain pre-petition claims relating to employee wages and benefits, customers, vendors, and suppliers in the ordinary course of business as well as certain insurance, tax, and principal and interest payments. We have been paying and intend to continue to pay undisputed post-petition claims in the ordinary course of business. With respect to pre-petition claims, we notified all known claimants of the deadline to file a proof of claim with the Bankruptcy Court. Our liabilities subject to compromise represent the estimate as of September 30, 2020 of claims expected. Pre-petition liabilities that are subject to compromise were required to be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts. Liabilities subject to compromise in our condensed consolidated balance sheet include the following as of September 30, 2020 (in thousands):

Accounts payable	\$	82,657
Accrued expenses		38,546
Operating lease liabilities		48,549
Lease liabilities - non-current		191,046
Other liabilities - non-current		78
Liabilities subject to compromise	\$	<u>360,876</u>

Restructuring, Impairment and Abandonment Charges

Restructuring and abandonment charges total \$5.5 million for the first fiscal quarter ended September 30, 2020, and include the following (in thousands):

Restructuring costs:

Severance and compensation related costs	\$	685
Total restructuring costs	\$	685

Abandonment costs:

Accelerated recognition of operating lease right-of-use assets		4,804
Total abandonment costs	\$	4,804

Total restructuring and abandonment costs	\$	5,489
---	----	-------

The restructuring and abandonment costs shown above primarily relate to our permanent store and Phoenix, Arizona distribution center closing plans. These decisions were made in the fourth quarter of fiscal 2020, prior to filing the Chapter 11 Cases.

Reorganization Items

Reorganization items included in our consolidated statement of operations represent amounts directly resulting from the Chapter 11 Cases and total a net benefit of \$37.6 million for the first fiscal quarter ended September 30, 2020, and include the following (in thousands):

Reorganization items, net:

Professional and legal fees	\$	9,846
Gains on lease terminations, net of estimated claims	\$	(47,470)
Total reorganization items, net	\$	(37,624)

During the first quarter of fiscal 2021, the leases for store locations related to our permanent closure plan were rejected and the related lease liabilities were reduced to the amount of estimated claims allowable by the bankruptcy court, resulting in the \$47.5 million gain shown above.

Cash paid for reorganization items during the first fiscal quarter ended September 30, 2020 was \$10.2 million and related to professional and legal fees. As of September 30, 2020, \$4.3 million of professional fees were unpaid and accrued in Accounts Payable and Accrued Liabilities in the accompanying Consolidated Balance Sheet.

3. Revenue recognition — Our revenue is earned from sales of merchandise within our stores and is recorded at the point of sale and conveyance of merchandise to customers. Revenue is measured based on the amount of consideration that we expect to receive, reduced by point of sale discounts and estimates for sales returns, and excludes sales tax. Payment for our sales is due at the time of sale. We maintain a reserve for estimated returns, as well as a corresponding returns asset in “Other Assets” in the Consolidated Balance Sheet, and we use historical customer return behavior to estimate our reserve requirements. No impairment of the returns asset was identified or recorded as of September 30, 2020. Gift cards are sold to customers in our stores and we issue gift cards for merchandise returns in our stores. Revenue from sales of gift cards and issuances of merchandise credits is recognized when the gift card is redeemed by the customer, or if the likelihood of the gift card being redeemed by the customer is remote (gift card breakage). The gift card breakage rate is determined based upon historical redemption patterns. An estimate of the rate of gift card breakage is applied over the period of estimated performance and the breakage amounts are included in net sales in the Consolidated Statement of Operations. Breakage income recognized was less than \$0.1 million in the first quarter of fiscal 2021 and was \$0.1 million in the first quarter of fiscal 2020. The gift card liability is included in “Accrued liabilities” in the Consolidated Balance Sheet. We will continue to evaluate whether and how store closures may affect customer behavior with respect to sales returns and gift card redemption and related breakage.

4. Share-based incentive plans — **Stock Option Awards.** We have established the Tuesday Morning Corporation 2008 Long-Term Equity Incentive Plan (the “2008 Plan”) and the Tuesday Morning Corporation 2014 Long-Term Incentive Plan, as amended (the “2014 Plan”), which allow for the granting of stock options to directors, officers and key employees of the Company, and certain other key individuals who perform services for us and our subsidiaries. Equity awards may no longer be granted under the 2008 Plan, but equity awards granted under the 2008 Plan are still outstanding.

Stock options were awarded under the 2008 Plan and the 2014 Plan with a strike price at the fair market value equal to the closing price of our common stock on the date of the grant.

Options granted under the 2008 Plan and the 2014 Plan typically vest over periods of one to four years and expire ten years from the date of grant. Options granted under the 2008 Plan and the 2014 Plan may have certain performance requirements in addition to service terms. If the performance conditions are not satisfied, the options are forfeited. The exercise prices of stock options outstanding on September 30, 2020 range between \$1.64 per share and \$20.91 per share. The 2008 Plan terminated as to new awards as of September 16, 2014. There were 3.5 million shares available for grant under the 2014 Plan at September 30, 2020.

Restricted Stock Awards—The 2008 Plan and the 2014 Plan authorize the grant of restricted stock awards to directors, officers, key employees and certain other key individuals who perform services for us and our subsidiaries. Equity awards may no longer be granted under the 2008 Plan, but restricted stock awards granted under the 2008 Plan are still outstanding. Restricted stock awards are not transferable, but bear certain rights of common stock ownership including voting and dividend rights. The 2014 Plan also authorizes the issuance of restricted stock units which, upon vesting, provide for the issuance of an equivalent number of shares of common stock or a cash payment based on the value of our common stock at vesting. Restricted units are not transferable and do not provide voting or dividend rights. Shares and units are valued at the fair market value of our common stock on the date of the grant. Shares and units may be subject to certain performance requirements. If the performance requirements are not met, the restricted shares or units are forfeited. Under the 2008 Plan and the 2014 Plan, as of September 30, 2020, there were 1,177,396 shares of restricted stock and 1,094,785 restricted stock units outstanding with award vesting periods, both performance-based and service-based, of one to four years and a weighted average grant date fair value of \$2.28 and \$1.90 per share, respectively.

Performance-Based Restricted Stock Awards and Performance-Based Stock Option Awards. As of September 30, 2020, there were 287,348 unvested performance-based restricted stock awards and performance-based restricted stock units payable in cash outstanding under the 2014 Plan.

Share-based Compensation Costs. Share-based compensation costs were recognized as follows (in thousands):

	Three Months Ended September 30,	
	2020	2019
Amortization of share-based compensation during the period	\$ 428	\$ 720
Amounts capitalized in ending inventory	(92)	(201)
Amounts recognized and charged to cost of sales	246	186
Amounts charged against income for the period before tax	<u>\$ 582</u>	<u>\$ 705</u>

5. Commitments and contingencies — Information related to the Chapter 11 Cases that were filed on May 27, 2020 is included in Note 1.

In addition, we are involved in legal and governmental proceedings as part of the normal course of our business. Reserves have been established when a loss is considered probable and are based on management's best estimates of our potential liability in these matters. These estimates have been developed in consultation with internal and external counsel and are based on a combination of litigation and settlement strategies. Management believes that such litigation and claims will be resolved without material effect on our financial position or results of operations.

6. Leases — We conduct substantially all operations from leased facilities, with the exception of the corporate headquarters in Dallas and the Dallas warehouse, distribution and retail complex, which are owned facilities. The other warehouse facility, which we plan to permanently close in the second quarter of fiscal 2021, and all other retail store locations are under operating leases that will expire over the next 1 to 11 years. Many of our leases include options to renew at our discretion. We include the lease renewal option periods in the calculation of our operating lease assets and liabilities when it is reasonably certain that we will renew the lease. We also lease certain equipment under finance leases that expire generally within 60 months.

Subsequent to the petition date, we commenced negotiations with our landlords on substantially all of our ongoing leases, resulting in significant modifications and remeasurement during the current quarter, and which continues into our second quarter of fiscal 2021. As a result of the remeasurements and terminations of rejected leases, we reduced our operating lease right-of-use assets by approximately \$32 million and our operating lease liabilities by approximately \$113 million, recording a gain of approximately \$81 million, which is included in Reorganization items, net (see Note 2) in the unaudited interim Consolidated Statement of Operations.

We determine whether an agreement contains a lease at inception based on our right to obtain substantially all of the economic benefits from the use of the identified asset and the right to direct the use of the identified asset. Lease liabilities represent the present value of future lease payments and the right-of-use (ROU) assets represent our right to use the underlying assets for the respective lease terms.

The operating lease liability is measured as the present value of the unpaid lease payments and the ROU asset is derived from the calculation of the operating lease liability. As our leases do not generally provide an implicit rate, we use our incremental borrowing rate as the discount rate to calculate the present value of lease payments. The incremental borrowing rate represents an estimate of the interest rate that would be required to borrow over a similar term, on a collateralized basis in a similar economic environment.

Rent escalations occurring during the term of the leases are included in the calculation of the future minimum lease payments and the rent expense related to these leases is recognized on a straight-line basis over the lease term. In addition to minimum lease payments, certain leases require payment of a proportionate share of real estate taxes and certain building operating expenses allocated on a percentage of sales in excess of a specified base. These variable lease costs are not included in the measurement of the ROU asset or lease liability due to unpredictability of the payment amount and are recorded as lease expense in the period incurred. The ROU asset is adjusted to account for previously recorded lease-related expenses such as deferred rent and other lease liabilities.

Our lease agreements do not contain residual value guarantees or significant restrictions or covenants other than those customary in such arrangements.

The components of lease cost are as follows (in thousands):

	Three Months Ended September 30, 2020	Three Months Ended September 30, 2019
Operating lease cost	\$ 15,039	\$ 24,068
Variable lease cost	3,956	6,553
Finance lease cost:		
Amortization of right-of-use assets	73	71
Interest on lease liabilities	6	8
Total lease cost	<u>\$ 19,074</u>	<u>\$ 30,700</u>

Total lease costs shown above excludes \$4.8 million recorded for accelerated recognition of rent expense as a result of planned abandonment due to our Phoenix distribution center closing plan.

The table below presents additional information related to the Company's leases as of September 30, 2020:

	<u>As of September 30, 2020</u>
Weighted average remaining lease term (in years)	
Operating leases	5.2
Finance leases	1.5
Weighted average discount rate	
Operating leases	7.6%
Finance leases	2.4%

Other information related to leases, including supplemental disclosures of cash flow information, is as follows (in thousands):

	<u>Three Months Ended September 30, 2020</u>
Cash paid for amounts included in the measurement of lease liabilities:	
Operating cash flows from operating leases	\$ 16,732
Operating cash flows from finance leases	5
Financing cash flows from finance leases	69
Right-of-use assets obtained in exchange for operating lease liabilities	(115,285)

Maturities of lease liabilities were as follows as of September 30, 2020 (in thousands):

	Operating Leases	Finance Leases	Total
Fiscal year:			
2021 (remaining)	\$ 47,974	\$ 211	\$ 48,185
2022	63,364	125	63,489
2023	55,079	—	55,079
2024	43,190	—	43,190
2025	34,448	—	34,448
2026	21,292	—	21,292
Thereafter	25,653	—	25,653
Total lease payments	\$ 291,000	\$ 336	\$ 291,336
Less: Interest	51,405	14	51,419
Total lease liabilities	\$ 239,595	\$ 322	\$ 239,917
Less: Current lease liabilities	48,549	257	48,806
Non-current lease liabilities	\$ 191,046	\$ 65	\$ 191,111

Current and non-current finance lease liabilities are recorded in “Accrued liabilities” and “Other liabilities – non-current,” respectively, on our consolidated balance sheet. As of September 30, 2020, there were no operating lease payments for legally binding minimum lease payments for leases signed but not yet commenced.

7. Earnings per common share — The following table sets forth the computation of basic and diluted earnings per common share (in thousands, except per share amounts):

	Three Months Ended September 30,	
	2020	2019
Net income/(loss)	\$ 18,624	\$ (9,629)
Less: Income to participating securities	—	—
Net income/(loss) attributable to common shares	\$ 18,624	\$ (9,629)
Weighted average number of common shares outstanding — basic	45,462	44,955
Effect of dilutive stock equivalents	—	—
Weighted average number of common shares outstanding — diluted	45,462	44,955
Net income/(loss) per common share — basic	\$ 0.41	\$ (0.21)
Net income/(loss) per common share — diluted	\$ 0.41	\$ (0.21)

For the quarter ended September 30, 2020, options representing the rights to purchase approximately 2.6 million weighted average shares were excluded in the dilutive earnings per share calculation because the assumed exercise of such options would have been anti-dilutive. For the quarter ended September 30, 2019, all options representing the rights to purchase shares were excluded in the dilutive earnings per share calculation, because the assumed exercise of such options would have been anti-dilutive.

8. Debt — We are party to a credit agreement which provided for an asset-based, five-year senior secured revolving credit facility in the original amount of up to \$180.0 million which was scheduled to mature on January 29, 2024 (the “Pre-Petition ABL Credit Agreement”). The availability of funds under the Pre-Petition ABL Credit Agreement was limited to the lesser of a calculated borrowing base and the lenders’ aggregate commitments under the Pre-Petition ABL Credit Agreement. Our indebtedness under the Pre-Petition ABL Credit Agreement is secured by a lien on substantially all of our assets.

On May 14, 2020, we entered into a Limited Forbearance Agreement (the “Forbearance Agreement”) with the lenders under the Pre-Petition ABL Credit Agreement.

Under the terms of the Forbearance Agreement, the lenders under the Pre-Petition ABL Credit Agreement agreed to not exercise remedies under the Pre-Petition ABL Credit Agreement and applicable law through May 26, 2020 (or earlier, if certain events occurred) based on the event of default resulting from our suspension of the operation of our business in the ordinary course and other events of default that may arise during the forbearance period as a result of failing to meet our obligations under certain agreements.

Pursuant to the Forbearance Agreement, the commitment of the lenders under the Pre-Petition ABL Credit Agreement was permanently reduced from \$180 million to \$130 million and new swingline loans were not advanced. During the forbearance period, the lenders were not obligated to fund further loans or issue or renew letters of credit under the Pre-Petition ABL Credit Agreement.

The Forbearance Agreement required loan repayments of \$10 million under the Pre-Petition ABL Credit Agreement, and the application of unrestricted and unencumbered cash balances in excess of \$32 million to the repayment of outstanding borrowings under the Pre-Petition ABL Credit Agreement. The Forbearance Agreement also required daily cash sweeps to the Company's main concentration account, a deposit account control agreement over such account, the imposition of additional reporting obligations, including a business plan, cash flow forecasts and working capital plan, and adherence to such cash flow forecasts, subject to certain permitted variances. The Forbearance Agreement also required the Company to retain a liquidation consultant and financial advisor. The Forbearance Agreement ended on May 26, 2020.

As of September 30, 2020, we had \$0.1 million outstanding under the Pre-Petition ABL Credit Agreement. The filing of the Chapter 11 Cases on May 27, 2020, was an event of default under the Pre-Petition ABL Credit Agreement, making all amounts outstanding under the existing Pre-Petition ABL Credit Agreement immediately due and payable. As of September 30, 2020, all outstanding borrowings under the existing agreement are reflected as a current liability in the Consolidated Balance Sheet. As discussed in Note 1, we believe that any efforts to enforce such payment obligations under the Pre-Petition ABL Credit Agreement were stayed as a result of the filing of the Chapter 11 Cases, and the creditors' rights of enforcement with respect to the Pre-Petition ABL Credit Agreement are subject to the applicable provisions of the Bankruptcy Code and any Bankruptcy Court orders modifying the stay, including the orders of the Bankruptcy Court approving the DIP ABL Facility.

The fair value of the Company's debt approximated its carrying amount as of September 30, 2020.

As no availability remains under the Pre-Petition ABL Credit Agreement, unused commitment fees and interest charges ceased.

At September 30, 2019, we had \$57.9 million of borrowings outstanding under the Pre-Petition ABL Agreement, \$8.9 million of outstanding letters of credit and availability of \$65.3 million. Letters of credit under the Revolving Credit Facility are generally for self-insurance purposes.

DIP ABL Facility

On May 29, 2020, we entered into the DIP ABL Credit Agreement. The Lenders under the DIP ABL Facility are the existing lenders under the Pre-Petition ABL Credit Agreement.

The DIP ABL Credit Agreement includes conditions precedent, representations and warranties, affirmative and negative covenants, and events of default customary for financings of this type and size. The DIP ABL Credit Agreement requires us to, among other things, maintain certain minimum liquidity requirements, and receive approval of a plan of reorganization or sale of substantially all our assets through the Chapter 11 process pursuant to certain agreed upon deadlines. On September 8, 2020, the lenders under the DIP ABL Facility agreed to extend the deadline contained in the court order approving the DIP ABL Credit Agreement for filing a plan of reorganization or motion to sell substantially all of our assets to September 17, 2020. On September 9, 2020, the committee for the unsecured creditors in the Chapter 11 Cases filed an objection with the Bankruptcy Court asserting the extension was not valid. The Company believes the objection is without merit and intends to vigorously oppose the objection.

Under the terms of the DIP ABL Credit Agreement, amounts available for advances are subject to a borrowing base generally consistent with the borrowing base under the Pre-Petition ABL Credit Agreement, subject to certain agreed upon exceptions. The DIP ABL Credit Agreement requires that all proceeds of advances under the DIP ABL Facility be used only for ordinary course general corporate and working capital purposes, costs of administration of the Chapter 11 Cases, certain professional fees and fees and expenses relating to the DIP ABL Facility, in each case, in accordance with a cash flow budget that will be updated periodically, subject to certain permitted variances. The DIP ABL Credit Agreement requires that all cash received by us (other than proceeds of the DIP ABL Facility) be applied to repay outstanding amounts under the Pre-Petition ABL Credit Agreement. As of September 30, 2020, we had no amounts outstanding under the DIP ABL Facility, \$8.8 million of outstanding letters of credit and approximately \$27.0 million of borrowing capacity available under the DIP ABL Facility.

The commitments of the lenders under the DIP ABL Facility terminate and outstanding borrowings under the DIP ABL Facility mature at the earliest of the date which is one hundred eighty (180) days after the Petition Date; the date of consummation of the sale of all or substantially all of our assets; the effective date of a plan of reorganization; or upon the occurrence of an event of default under the DIP ABL Credit Agreement or such other date as the outstanding borrowings under the DIP Facility are accelerated.

DIP Term Facility

On July 10, 2020, in accordance with a final order issued by the Bankruptcy Court on that date (the “Final Order”), we entered into the Senior Secured Super Priority Debtor-In-Possession Delayed Draw Term Loan Agreement (the “DIP DDTL Agreement”) with the Franchise Group, Inc., which provides for delayed draw term loans up to an aggregate principal amount of \$25 million (the “DIP Term Facility”). Pursuant to the DIP DDTL Agreement, the Lender agreed to lend us up to an aggregate principal amount of \$25 million in the form of delayed draw term loans. The DIP Term Facility is guaranteed by certain of our subsidiaries and secured on a super priority basis by real estate assets owned by us (the “Real Estate Assets”), including our corporate headquarters and warehouse/distribution complex located in Dallas, Texas. The DIP Term Facility will mature on April 10, 2021, which maturity (unless accelerated subject to the terms set forth in the DIP DDTL Agreement) may be extended, subject to payment of an extension fee to the Lender, for an additional three months at our election. The DIP Term Facility will bear interest at a rate per annum based on 3-month LIBOR (with a 1.00% LIBOR floor), plus an interest rate margin of 5.0% (subject to further increase of 2.0% upon the occurrence of an event of default).

Under the terms of the DIP DDTL Agreement, so long as the Final Order is unstayed and is in full force and effect, we will be entitled to make borrowings under the DIP Term Facility in minimum increments of \$2.5 million subject to the satisfaction of certain additional conditions, including absence of defaults under the DIP Term Facility, delivery of notices of borrowing and the accuracy of the representations and warranties of us in the DIP DDTL Agreement.

Pursuant to the DIP DDTL Agreement, proceeds of borrowings under the DIP Term Facility must be used by us to: (1) repay obligations of us under (a) the DIP ABL Credit Agreement, and (b) the Pre-Petition ABL Credit Agreement; (2) fund general working capital; and (3) fund reasonable transaction costs and fees with respect to the DIP Term Facility, to the extent permitted by the applicable orders of the Bankruptcy Court and the DIP ABL Credit Agreement.

The DIP Term Facility includes conditions precedent, representations and warranties, affirmative and negative covenants, and events of default customary for financings of this type and size. We will be obligated to prepay amounts outstanding under the DIP Term Facility upon certain asset sales and casualty or condemnation events with respect to the Real Estate Assets.

As of September 30, 2020, we had no amounts outstanding under the DIP Term Facility.

Interest Expense

Interest expense for the first quarter of fiscal 2021 from the DIP ABL Credit Agreement and the DIP Term Facility of \$2.8 million was comprised of the amortization of financing fees of \$2.6 million and commitment fees of \$0.2 million. Interest expense for the first quarter of fiscal 2020 from the Pre-Petition ABL Credit Agreement of \$0.7 million was comprised of interest of \$0.5 million, commitment fees of \$0.1 million, and the amortization of financing fees of \$0.1 million.

9. Property and equipment, including depreciation — Accumulated depreciation of owned property and equipment as of September 30, 2020 and June 30, 2020 was \$201.0 million and \$231.1 million, respectively. The decrease in the current quarter was due to the stores closed permanently during the quarter and the resulting property and equipment disposals. As of September 30, 2020, due to the ongoing impact of COVID-19, we performed an interim impairment assessment of our leasehold improvement assets, which included estimated future cash flow assumptions incorporating the impact of our temporary store closures. As a result of this assessment, while two stores did present indicators of impairment, we determined that no additional store fixed asset impairment was required as the undiscounted projected future cash flows for each store sufficiently recovered the carrying value of the related asset group. Due to the uncertainty around COVID-19, our projected future cash flows may differ materially from actual results. While we believe our estimates and judgments about projected future cash flows are reasonable, future impairment charges may be required if the future cash flows, as projected, do not occur, or if events change requiring us to revise our estimates.

As of September 30, 2020, we assessed the criteria for held for sale classification in light of the current environment and concluded that none met the criteria as of September 30, 2020.

10. Income taxes —The Company or one of its subsidiaries files income tax returns in the U.S. federal, state and local taxing jurisdictions. With few exceptions, the Company and its subsidiaries are no longer subject to state and local income tax examinations for years prior to fiscal 2016 and are no longer subject to federal income tax examinations for years prior to fiscal 2013.

On March 27, 2020, in an effort to mitigate the economic impact of the COVID-19 pandemic, the U.S. Congress enacted the Coronavirus Aid, Relief and Economic Security Act (“CARES Act”). The CARES Act includes certain corporate income tax provisions, which among other things, included a five-year carryback of net operating losses and acceleration of the corporate alternative minimum tax credit. The Company has evaluated the CARES Act and it is not expected to have a material impact on the income tax provision. The CARES Act also contains provisions for deferral of the employer portion of social security taxes incurred

through the end of calendar 2020 and an employee retention credit, a refundable payroll credit for 50% of wages and health benefits paid to employees not providing services due to the pandemic. As a result of the CARES Act, we continue to defer qualified payroll taxes and intend to claim the employee retention credit.

The effective tax rate for the quarter ended September 30, 2020 was (1.3%) and resulted in a tax benefit for the quarter. The effective tax rate for the quarter ended September 30, 2019 was (4.1%), resulting in tax expense for the prior year quarter. A full valuation allowance is currently recorded against substantially all of the Company's deferred tax assets. A deviation from the customary relationship between income tax expense and (benefit) and pretax income/(loss) results from the effects of the valuation allowance.

11. Cash and cash equivalents — Cash and cash equivalents include credit card receivables and all highly liquid instruments with original maturities of three months or less. Cash equivalents are carried at cost, which approximates fair value. As of September 30, 2020 and June 30, 2020, credit card receivables from third party consumer credit card providers were \$2.2 million and \$3.7 million, respectively. Such receivables are generally collected within one week of the balance sheet date.

12. Intellectual property — Our intellectual property primarily consists of indefinite lived trademarks. We evaluate annually whether the trademarks continue to have an indefinite life. Trademarks and other intellectual property are reviewed for impairment annually in the fourth fiscal quarter, and may be reviewed more frequently if indicators of impairment are present. As of September 30, 2020, the carrying value of the intellectual property, which included indefinite-lived trademarks, was \$1.6 million, and no impairment was identified or recorded.

13. Subsequent events —

Sale Leaseback

On October 30, 2020, the Company and certain subsidiaries entered into a purchase and sale agreement (the "Purchase and Sale Agreement") with Rialto Real Estate Fund IV – Property, LP (the "Purchaser"), pursuant to which the Purchaser agreed to purchase the Company's Dallas headquarters and warehouse facilities for an aggregate purchase price of \$60 million. Under the terms of Purchase and Sale Agreement, the Company and certain subsidiaries and the Purchaser will enter into lease agreements under which the Company will lease the headquarters and warehouse facilities following the close of the sale under the Purchase and Sale Agreement. The lease of the headquarters facility will be for a term of 10 years and the lease of the warehouse facilities will be for an initial term of 2.5 years with an option to extend the warehouse facilities lease for one additional year.

The closing under the Purchase and Sale Agreement is subject to the approval of the Bankruptcy Court and other customary closing conditions. Under the terms of the Purchase and Sale Agreement, and subject to the satisfaction of all conditions to closing, the closing of the transactions contemplated under the Purchase and Sale Agreement shall occur the third business day following the issuance of an order by the Bankruptcy Court confirming the Company's plan of reorganization, but in no event later than December 31, 2020.

ABL Commitment Letter

On November 2, 2020, the Company and its subsidiaries entered into a commitment letter (the "ABL Commitment Letter") with JPMorgan Chase Bank, N.A., Wells Fargo Bank, N.A. and Bank of America, N.A. (collectively, the "Commitment Parties"), pursuant to which the Commitment Parties agreed to provide, subject to certain conditions, a revolving credit facility in an aggregate amount of \$110 million (the "New ABL Facility"). Pursuant to the ABL Commitment Letter, the closing of the New ABL Facility is subject to customary conditions precedent, including execution of definitive agreements, and is subject to entry of Bankruptcy Court approvals in form and substance acceptable to the Commitment Parties, including issuance of a confirmation order approving the Company's plan of reorganization in form and substance acceptable to the Commitment Parties.

The proposed terms of the New ABL Facility are set forth in the term sheet attached to the ABL Commitment Letter. The New ABL Facility is expected to include conditions precedent, representations and warranties, affirmative and negative covenants, and events of default customary for financings of this type and size. The New ABL Facility will require the Company to maintain a minimum fixed charge coverage ratio if borrowing availability falls below certain minimum levels.

Under the proposed terms of the New ABL Facility, amounts available for advances would be subject to a borrowing base as described in the ABL Commitment Letter. The closing of the New ABL Facility is subject to the Company having a minimum availability of \$25 million as determined under the New ABL Facility at the time of closing. Under the ABL Commitment Letter, borrowings under the New ABL Facility initially will bear interest at a rate equal to the adjusted LIBOR rate plus a spread of 2.75% or the CB rate plus a spread of 1.75%.

The New ABL Facility would be secured by a first priority lien on all present and after-acquired tangible and intangible assets of the Company and its subsidiaries other than certain collateral that will secure bonds to be issued to general unsecured creditors under the Amended Plan (as defined below). The commitments of the lenders under the proposed New ABL Facility would terminate and outstanding borrowings under the New ABL Facility would mature on the third anniversary of the closing of the New ABL Facility.

Backstop Commitment Letter

On November 3, 2020, the Company entered into a Backstop Commitment Letter (the “Backstop Commitment Letter”) with Osmium Partners, LLC (the “Commitment Party”). Pursuant to the proposed Amended Plan (as defined below), the Company has proposed to conduct a \$40 million rights offering (the “Rights Offering”), under which eligible holders of the Company’s common stock would be granted share purchase rights to purchase up to \$24 million of shares of the Company’s common stock, and the Commitment Parties would be granted share purchase rights to purchase up to \$16 million of shares of the Company’s common stock. Pursuant to the Backstop Commitment Letter, the Commitment Party has agreed to purchase all unsubscribed shares in the Rights Offering (the “Backstop Commitment”). The Backstop Commitment and the related Rights Offering are subject to a number of conditions, including execution of a definitive backstop commitment agreement, approval of the Bankruptcy Court and certain other conditions set forth in the Backstop Commitment Letter.

As consideration for the Backstop Commitment, the Backstop Commitment Letter provides that the Commitment Party would receive a commitment fee equal to 5% of the Backstop Commitment, payable in shares of the Company’s common stock, and 10 million warrants to acquire additional shares of the Company’s common stock at a price equal to 150% of the price in the Rights Offering. In addition, the Backstop Commitment Letter provides that the Commitment Party would be entitled to appoint three members of the Company’s board of directors, with a maximum board size of eight directors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our unaudited interim consolidated financial statements and the notes thereto included in Part I, Item 1 of this Quarterly Report on Form 10-Q and our Annual Report on Form 10-K for the fiscal year ended June 30, 2020.

Business Overview

- We are one of the original off-price retailers and a leading destination for unique home and lifestyle goods. We are an off-price retailer, selling high-quality products at prices generally below those found in boutique, specialty and department stores, catalogs and on-line retailers. Our customers come to us for an ever-changing, exceptional assortment of brand names at great prices. Our strong value proposition has established a loyal customer base, who we engage with regularly through social media, email, direct mail, digital media and newspaper circulars.
- The COVID-19 pandemic has had, and could continue to have, an adverse effect on our business operations, store traffic, employee availability, financial conditions, results of operations, liquidity and cash flow. As of March 25, 2020, we temporarily closed all of our stores nationwide, severely reducing revenues and resulting in significant operating losses and the elimination of substantially all operating cash flow. Stores gradually reopened as allowed by state and local jurisdictions, and all but two of our stores had re-opened by the end of the fiscal year. The scope and duration of this pandemic and the related disruption to our business and financial impacts cannot be reasonably estimated at this time.

Bankruptcy Filing and Going Concern

- On May 27, 2020, we commenced the Chapter 11 Cases by filing in the Bankruptcy Court voluntary petitions under Chapter 11 of the Bankruptcy Code. The Chapter 11 Cases are being jointly administered for procedural purposes.
- We will continue to operate our businesses as “debtors-in-possession” under the jurisdiction of the Bankruptcy Court and in accordance with the applicable provisions of the Bankruptcy Code and orders of the Bankruptcy Court.
- After we filed our Chapter 11 Cases, the Bankruptcy Court granted certain relief requested by the us enabling us to conduct our business activities in the ordinary course, including, among other things and subject to the terms and conditions of such orders, authorizing us to pay employee wages and benefits, to pay taxes and certain governmental fees and charges, to continue to operate our cash management system in the ordinary course, and to pay the pre-petition claims of certain of our vendors. For goods and services provided following the Petition Date, we intend to pay vendors in full under normal terms. See Note 8 – “Debt” to the consolidated financial statements herein for a discussion of the DIP ABL Facility and the DIP Term Facility (each as defined below).
- Subject to certain exceptions, under the Bankruptcy Code, the filing of the Chapter 11 Cases automatically enjoined, or stayed, the continuation of most judicial or administrative proceedings or filing of other actions against us or our property to recover, collect or secure a claim arising prior to the Petition Date. Accordingly, although the filing of the Chapter 11 Cases triggered defaults under our funded debt obligations, creditors were stayed from taking any actions against us as a result of such defaults, and the creditors’ rights of enforcement are subject to the applicable provisions of the Bankruptcy Code and the Bankruptcy Court orders modifying the stay, including the interim order of the Bankruptcy Court approving the DIP ABL Facility. Absent an order of the Bankruptcy Court, substantially all of our pre-petition liabilities are subject to settlement under the Bankruptcy Code.
- On June 9, 2020, the Bankruptcy Court issued an order approving procedures for the closure of up to 230 of our store locations. In early June, we commenced the process to close 132 store locations in a first wave of store closings. By the end of July all of these stores were permanently closed. By August 31, 2020, we closed an additional 65 stores following negotiations with our landlords. We also expect to close our Phoenix, Arizona distribution center in the second quarter of fiscal 2021.
- We have concluded that our financial condition and our projected operating results, our need to satisfy certain financial and other covenants in our debtor-in-possession financing, our need to implement a restructuring plan and receive new financing, and the risks and uncertainties surrounding the Chapter 11 Cases raise substantial doubt as to our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that would result if the Company was unable to realize its assets and settle its liabilities as a going concern in the ordinary course of business.
- For the duration of the Chapter 11 Cases, our operations and ability to develop and execute our business plan are subject to the risks and uncertainties associated with the Chapter 11 process as described in Item 1A. “Risk Factors” in our Annual Report on Form 10-K for the year ended June 30, 2020. As a result of these risks and uncertainties, the amount and composition of our assets, liabilities, officers and/or directors could be significantly different following the outcome of the Chapter 11 proceedings, and the description of our operations, properties, liquidity and capital resources included in this quarterly report may not accurately reflect our operations, properties, liquidity and capital resources following the Chapter 11 process.

- As a result of the filing of the Chapter 11 Cases, trading of the Company's common stock on Nasdaq was suspended on June 8, 2020, and the Company's common stock began trading over the counter in the OTC Pink Market under the symbol "TUESQ".

Quarter Ended September 30, 2020

- We operated 490 stores in 40 states as of September 30, 2020. Our store base decreased from 707 stores in 39 states as of September 30, 2019. During the first quarter of fiscal 2021, we completed the closure of 197 stores, as part of our reorganization plans, and opened two new stores. We also continued the process to close our Phoenix, Arizona distribution center. These store closures have had and will continue to have an impact on our operating cash flows.
- Net sales for the first quarter of fiscal 2021 were \$161.5 million, a decrease of 28.0%, compared to \$224.4 million for the same period last year, primarily due to the completion of our permanent store closing plans approved through bankruptcy proceedings, as well as a decrease in sales from comparable stores (which we define as stores open at least five quarters, including stores relocated in the same market and renovated stores) of 16.3%. The decrease in comparable store sales was due to a 20.3% decrease in customer transactions along with a 5.0% decrease in average ticket. To provide a comparable measure for our continuing stores, we calculated comparable store sales excluding sales for the stores we permanently closed, and estimate that comparable store sales, as further adjusted, declined approximately 18.4% for the first quarter of fiscal 2021. We believe the decline in comparable store sales was due in part to a decrease in store level inventory. Average inventory per store was down approximately 57% for the first quarter of fiscal 2021, compared to the same period last year. This decline was partially due to the strength of sales immediately post re-opening as well as our inability to restock stores rapidly. Store level inventory challenges were due in part to the closure of much of our merchant and supply chain operations during the height of the spring COVID outbreak as well as pandemic-related disruptions to the supply chain. Sales per square foot for the rolling 12-month period ended September 30, 2020 were \$100, a decrease of 12.9% from the rolling 12-month period ended September 30, 2019. We utilize key performance indicators, such as those described above, to evaluate performance of our business. These measures are defined as described above and throughout management's discussion and analysis.
- Gross margin for the first quarter of fiscal 2021 was 31.6%, compared to 36.1% for the same period last year.
- For the first quarter of fiscal 2021, selling, general and administrative expenses decreased \$27.7 million to \$62.1 million, from \$89.8 million for the same quarter last year.
- Abandonment and restructuring charges were \$5.5 million during the first quarter of fiscal 2021, and related to our permanent store closing plan along with our decision to close our Phoenix distribution center.
- Our operating loss for the first quarter of fiscal 2021 was \$16.5 million, compared to \$8.7 million for the same period last year. The operating loss in the current year was primarily the result of lower net sales which were significantly driven by the closure of 197 stores, as well as the estimated 18.4% decrease in comparable store sales for the stores remaining open, and the \$5.5 million of abandonment and restructuring charges.
- Reorganization items were a net benefit of \$37.6 million during the first quarter of fiscal 2021, primarily driven by gains on lease terminations for rejected leases, net of estimated claims, partially offset by professional and legal fees incurred as a direct result of the filing of our Chapter 11 Cases.
- Our net income for the first quarter of fiscal 2021 was \$18.6 million, or \$0.41 per share, compared to a loss of \$9.6 million, or \$0.21 loss per share, for the same period last year. The net income in the current year was primarily driven by the benefit from net reorganization items, which primarily resulted from the termination of lease liabilities related to our permanently closed stores for which leases were rejected in the Chapter 11 Cases process.
- As shown under the heading "Non-GAAP Financial Measures" below, EBITDA for the first quarter of fiscal 2021 was \$25.5 million compared to negative \$2.2 million for the same period last year. Adjusted EBITDA for the first quarter of fiscal 2021 was negative \$6.0 million compared to negative \$1.5 million for the same period last year.
- Inventory levels at September 30, 2020 decreased \$6.8 million to \$108.1 million from \$114.9 million at June 30, 2020. Compared to the same date last year, inventories decreased \$177.8 million from \$285.9 million at September 30, 2019. The decrease in inventory as compared to September 30, 2019 was driven primarily by the disruption to our business caused by the COVID-19 pandemic, and the liquidation of inventory at the 219 stores permanently closed since the end of the first quarter of fiscal 2020. While our supply chain recommenced operations in mid-June 2020, the disruption to inventory flow is immense. Inventory turnover for the trailing five quarters as of September 30, 2020 was 3.0 turns, an increase from the trailing five quarter turnover as of September 30, 2019 of 2.6 turns, and was favorably impacted by lower than optimal current inventory levels.
- Cash and cash equivalents at September 30, 2020 increased \$15.2 million to \$61.9 million from \$46.7 million at June 30, 2020. Compared to the same date last year, cash and cash equivalents increased \$56.6 million from \$5.3 million at September 30, 2019. We had remaining outstanding borrowings of \$0.1 million under our Pre-Petition ABL Credit

Agreement at September 30, 2020 and borrowings of \$57.9 million at September 30, 2019. There were no outstanding borrowings under the DIP ABL Facility or DIP Term Facility at September 30, 2020. Total liquidity, defined as cash and cash equivalents plus the \$27.0 million availability for borrowing under the DIP ABL Facility and \$25.0 million available on the DIP Term Facility, was \$113.9 million as of September 30, 2020.

Results of Operations

Our business is highly seasonal, with a significant portion of our net sales and most of our operating income generated in the quarter ending December 31.

There can be no assurance that the trends in sales or operating results will continue in the future.

Non-GAAP Financial Measures

We define EBITDA as net income or net loss before interest, income taxes, depreciation, and amortization. Adjusted EBITDA reflects further adjustments to EBITDA to eliminate the impact of certain items, including certain non-cash items and other items that we believe are not representative of our core operating performance. These measures are not presentations made in accordance with GAAP. EBITDA and Adjusted EBITDA should not be considered as alternatives to net income or loss as a measure of operating performance. In addition, EBITDA and Adjusted EBITDA are not presented as, and should not be considered as, alternatives to cash flows as a measure of liquidity. EBITDA and Adjusted EBITDA should not be considered in isolation, or as substitutes for analysis of our results as reported under GAAP and Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by such adjustments. We believe it is useful for investors to see these EBITDA and Adjusted EBITDA measures that management uses to evaluate our operating performance. These non-GAAP financial measures are included to supplement our financial information presented in accordance with GAAP and because we use these measures to monitor and evaluate the performance of our business as a supplement to GAAP measures and we believe the presentation of these non-GAAP measures enhances investors' ability to analyze trends in our business and evaluate our performance. EBITDA and Adjusted EBITDA are also frequently used by analysts, investors and other interested parties to evaluate companies in our industry. The non-GAAP measures presented may not be comparable to similarly titled measures used by other companies.

The following table reconciles net income/(loss), the most directly comparable GAAP financial measure, to EBITDA and Adjusted EBITDA, each of which is a non-GAAP financial measure (in thousands):

	Three Months Ended September 30,	
	2020	2019
Net income/(loss) (GAAP)	\$ 18,624	\$ (9,629)
Depreciation and amortization	4,384	6,383
Interest expense, net	2,753	663
Income tax provision/(benefit)	(236)	380
EBITDA (non-GAAP)	\$ 25,525	\$ (2,203)
Share based compensation expense (1)	582	705
Restructuring and abandonment expenses (2)	5,489	—
Reorganization items, net (3)	(37,624)	—
Adjusted EBITDA (non-GAAP)	\$ (6,028)	\$ (1,498)

(1) Adjustment includes charges related to share-based compensation programs, which vary from period to period depending on volume, timing and vesting of awards. We adjust for these charges to facilitate comparisons from period to period.

(2) Adjustment includes only certain restructuring expenses, including abandonment charges and compensation costs related to the permanent closure plan for stores and our Phoenix distribution center. Such costs vary from period to period and management does not consider in our evaluation of ongoing operations.

(3) Adjustment includes only incremental professional and legal fees incurred after and as a direct result of the filing of the Chapter 11 Cases, along with gains resulting from lease terminations, partially offset by estimated claims. Such items vary from period to period and are not considered in management's evaluation of the Company's ongoing operations.

**Three Months Ended September 30, 2020
Compared to the Three Months Ended September 30, 2019**

Net sales for the first quarter of fiscal 2021 were \$161.5 million, a decrease of 28.0%, compared to \$224.4 million for the same period last year, primarily due to the completion of our permanent store closing plans approved through bankruptcy proceedings, as well as a decrease in sales from comparable stores of 16.3%. New stores are included in the same store sales calculation starting with the sixteenth month following the date of the store opening. A store that relocates within the same geographic market or modifies its available retail space is generally considered the same store for purposes of this computation. Stores that are closed are included in the computation of comparable store sales until the month of closure. The decrease in comparable store sales was due to a 20.3% decrease in customer transactions along with a 5.0% decrease in average ticket. To provide a comparable measure for our continuing stores, we calculated comparable store sales excluding sales for the stores we permanently closed, and estimate that comparable store sales, as further adjusted, declined approximately 18.4% for the first quarter of fiscal 2021. We believe the decline in comparable store sales was due in part to a decrease in store level inventory. Average inventory per store was down approximately 57% for the first quarter of fiscal 2021, compared to the same period last year. This decline was partially due to the strength of sales immediately post re-opening as well as our inability to restock stores rapidly. Store level inventory challenges were due in part to the closure of much of our merchant and supply chain operations during the height of the spring COVID outbreak as well as pandemic-related disruptions to the supply chain. Non-comparable store sales decreased by a total of \$34.2 million and resulted in a 1,170 basis point negative impact on net sales. Non-comparable store sales include the net effect of sales from new stores and sales from stores that have closed. The non-comparable store sales decrease was driven by 219 store closures, partially offset by two store openings, which have occurred since the end of the first quarter of fiscal 2020. Store openings and closings are presented in the table below.

	Store Openings/Closings		
	Three Months Ended September 30, 2020	Three Months Ended September 30, 2019	Fiscal Year Ended June 30, 2020
Stores open at beginning of period	685	714	714
Stores opened during the period	2	1	1
Stores closed during the period	(197)	(8)	(30)
Stores open at end of period	<u>490</u>	<u>707</u>	<u>685</u>

We ended the first quarter of fiscal 2021 with 490 stores, compared to 707 stores at September 30, 2019. No stores were relocated during the first quarter of fiscal 2021, while one store was relocated in the first quarter of the prior fiscal year.

Gross profit for the first quarter of fiscal 2021 was \$51.1 million, a decrease of 37.0% compared to \$81.1 million in gross profit for the first quarter of fiscal 2020. Gross profit as a percentage of net sales was 31.6% for the first quarter of fiscal 2021, compared to 36.1% for the first quarter of fiscal 2020. The decrease in gross margin was primarily a result of higher previously incurred supply chain and transportation costs recognized in the current quarter, partially offset by lower markdowns.

Selling, general & administrative (SG&A) expenses for the first quarter of fiscal 2021 decreased \$27.7 million to \$62.1 million, compared to \$89.8 million in the same period last year. The decrease in SG&A was primarily due to lower store expenses on a smaller store base, including a significant decrease in store rents for both closed stores and negotiated rents for the ongoing store base, labor costs and depreciation, as well as reduced advertising. Subsequent to the petition date, we commenced negotiations with our landlords on substantially all of our ongoing leases, resulting in significant modifications and reduced lease costs. Also contributing to the favorable comparison were lower corporate expenses including reductions in compensation costs and legal and professional fees. As a percentage of net sales, SG&A expenses were 38.4% for the first quarter of fiscal 2021 compared to 40.0% in the same period last year, leveraging approximately 160 basis points.

Our operating loss was \$16.5 million for the first quarter of fiscal 2021, compared to an operating loss of \$8.7 million during the first quarter of fiscal 2020.

Interest expense was \$2.8 million for the first quarter of fiscal 2021, compared to \$0.7 million for in the first quarter of the prior fiscal year. The increase in the current year period is due to the amortization of financing fees incurred for the DIP financing.

Income tax benefit was \$0.2 million in the first quarter of fiscal 2021, compare to income tax expense of \$0.4 million in the first quarter of the prior fiscal year. The effective tax rates for the first quarter of fiscal 2021 and fiscal 2020 were (1.3%) and (4.1%), respectively. A full valuation allowance is currently recorded against substantially all of our deferred tax assets as of September 30, 2020. A deviation from the customary relationship between income tax expense and pretax income results from the effects of the valuation allowance. We currently believe the future year effective tax rates will continue to be nominal until the cumulative losses and valuation allowance are fully utilized.

Liquidity and Capital Resources

Cash Flows for the Period Ended September 30, 2020

Cash Flows from Operating Activities

Net cash provided by operating activities for the three months ended September 30, 2020 was \$15.2 million compared to cash used in operating activities of \$25.3 million for the three months ended September 30, 2019. The increase in cash provided by operating activities in the current year was primarily the result of a \$54.7 million lower cash usage for inventory due to lower purchases, as compared to the prior year, partially offset by a \$16.6 million higher cash usage in accounts payable. Additionally, July 2020 rents were paid at the end of June 2020, in the fourth quarter of fiscal 2020, favorably impacting cash flows from operations in the first quarter of fiscal 2021. Prepayment of rents in the first quarter of fiscal 2021 for the second quarter decreased significantly. There were no significant changes to our vendor payments policy during the three months ended September 30, 2020.

Cash Flows from Investing Activities

Net cash provided by investing activities for the three months ended September 30, 2020 related primarily to \$1.1 million of proceeds from the sale of property and equipment at the 197 stores that we permanently closed, and was partially offset by \$0.6 million of capital expenditures in the quarter. Net cash used in investing activities for the three months ended September 30, 2019 related primarily to capital expenditures. Our capital expenditures are generally associated with store relocations, expansions and new store openings, capital improvements to existing stores, as well as enhancements to our distribution center facilities, equipment, and systems along with improvements related to our corporate office, technology and equipment.

We currently expect to incur capital expenditures, net of construction allowances received from landlords, of approximately \$6 million to \$8 million in fiscal year 2021, which reflects reduced capital spending as one of the liquidity preservation measures we have taken due to the financial impact of COVID-19.

Cash Flows from Financing Activities

Net cash used in financing activities of \$0.5 million for the three months ended September 30, 2020 related primarily to the payment of financing fees paid related to our DIP finance agreements. Net cash provided by financing activities of \$23.9 million for the prior year period related primarily to \$23.2 million of net borrowings on our Pre-Petition ABL Credit Agreement, along with a \$0.7 million cash overdraft provision.

Pre-Petition ABL Credit Agreement

We are party to a credit agreement providing for an asset-based, five year senior secured revolving credit facility in the original amount of up to \$180.0 million that was scheduled to mature on January 29, 2024 (the "Pre-Petition ABL Credit Agreement"). The availability of funds under the Pre-Petition ABL Credit Agreement was limited to the lesser of a calculated borrowing base and the lenders' aggregate commitments under the Pre-Petition ABL Credit Agreement. Our indebtedness under the Pre-Petition ABL Credit Agreement is secured by a lien on substantially all of our assets.

As of September 30, 2020, we had \$0.1 million outstanding under the Pre-Petition ABL Credit Agreement, \$8.8 million of outstanding letters of credit and no availability. Letters of credit under the Pre-Petition ABL Credit Agreement are generally for self-insurance purposes. See Note 8 to the consolidated financial statements herein and "Liquidity" below for additional information.

Liquidity

Historically, we have financed our operations with funds generated from operating activities, available cash and cash equivalents, and borrowings under our Pre-Petition ABL Credit Agreement.

The COVID-19 pandemic has had, and could continue to have, an adverse effect on our business operations, store traffic, employee availability, financial conditions, results of operations, liquidity and cash flow. As of March 25, 2020, we temporarily closed all of our stores nationwide, severely reducing revenues and resulting in significant operating losses and the elimination of substantially all operating cash flow. Stores gradually reopened as allowed by state and local jurisdictions, and all but two of our stores had re-opened by the end of fiscal 2020. The scope and duration of this pandemic and the related disruption to our business and financial impacts cannot be reasonably estimated at this time. While we have taken actions to minimize costs, some of which are permanent including the closure of 197 stores and the planned closure of our Phoenix distribution center, and mitigate the related risks, there can be no assurance that these measures will continue to provide benefit or that they will be adequate to mitigate future changes in circumstances.

To provide for liquidity during the Chapter 11 Cases, we have entered into agreements for debtor-in-possession financing. On May 29, 2020, in accordance with an order of the Bankruptcy Court, Debtors entered into the DIP ABL Credit Agreement, which provides for a super priority secured debtor-in-possession revolving credit facility in an aggregate amount of up to \$100 million. Under the terms of the DIP ABL Credit Agreement, amounts available for advances are subject to a borrowing base generally consistent with the borrowing base under the Pre-Petition ABL Credit Agreement, subject to certain agreed upon exceptions. The DIP ABL Credit Agreement requires that all proceeds of advances under the DIP ABL Facility be used only for ordinary course general corporate and working capital purposes, costs of administration of the Chapter 11 Cases, certain professional fees and fees and expenses relating to the DIP ABL Facility, in each case, in accordance with a cash flow budget that will be updated periodically, subject to certain permitted variances. The DIP ABL Credit Agreement requires that all cash received by us (other than proceeds of the DIP ABL Facility) be applied to repay outstanding amounts under the Pre-Petition ABL Credit Agreement.

The DIP ABL Facility contains customary affirmative and negative covenants for debtor-in-possession financings. In addition, the DIP ABL Facility requires us to, among other things, maintain certain minimum liquidity requirements, and receive approval of a plan of reorganization or sale of substantially all of our assets through the Chapter 11 process by agreed upon deadlines.

The commitments of the lenders under the DIP ABL Facility terminate and outstanding borrowings under the DIP ABL Facility mature at the earliest of the date which is one hundred eighty (180) days after the Petition Date; the date of consummation of the sale of all or substantially all of our assets; the effective date of a plan of reorganization; or upon the occurrence of an event of default under the DIP ABL Credit Agreement or such other date as the outstanding borrowings under the DIP Facility are accelerated.

As of September 30, 2020, cash and cash equivalents were \$61.9 million and total liquidity, defined as cash and cash equivalents plus the \$27.0 million availability for borrowing under the DIP ABL Facility and \$25.0 million available on the DIP Term Facility, was \$113.9 million as of September 30, 2020.

As discussed above, in mid-June 2020, we commenced the process to close 132 store locations in a first wave of store closings. By the end of July, all of these stores were permanently closed. In mid-July 2020, we began the process to close an additional 65 stores following negotiations with our landlords. By the end of August, all of those stores were permanently closed. We also continue the process to close our Phoenix, Arizona distribution center and expect the closure to be completed in the second quarter of fiscal 2021. These store closures have had and will continue to have an impact on our operating cash flows.

Please refer to Note 1, Note 2, and Note 8 to the consolidated financial statements herein for additional information regarding the Chapter 11 Cases as well as for a discussion of the DIP ABL Facility and the DIP Term Facility.

Although we are seeking to address our liquidity concerns through the Chapter 11 Cases, the approval of a plan of reorganization or the sale of all or substantially all of our assets is not within our control and uncertainty remains as to whether the Bankruptcy Court will approve a plan of reorganization or a sale of all or substantially all of our assets.

We have concluded that our financial condition and our projected operating results, our need to satisfy certain financial and other covenants in our debtor-in-possession financing, our need to implement a restructuring plan and receive new financing, and the risks and uncertainties surrounding the COVID-19 pandemic and the Chapter 11 Cases raise substantial doubt as to our ability to continue as a going concern. We believe that our plans, already implemented and continuing to be implemented, will mitigate the conditions and events that have raised substantial doubt about the entity's ability to continue as a going concern. However, due to the uncertainty around the scope and duration of the COVID-19 pandemic and the related disruption to our business and financial impacts, and because our plans, including those in connection with the Chapter 11 Cases, are not yet finalized, fully executed, or approved by the Bankruptcy Court, they cannot be deemed probable of mitigating this substantial doubt.

See Note 13 to the consolidated financial statements herein for information regarding proposed financing transactions in connection with the Chapter 11 Cases.

Off-Balance Sheet Arrangements and Contractual Obligations

We had no off-balance sheet arrangements as of September 30, 2020.

Except as discussed in Notes 1, 6 and 8 to the Consolidated Financial Statements, there have been no material changes outside the ordinary course of business from the disclosures relating to contractual obligations contained under "Contractual Obligations" in Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in our Annual Report on Form 10-K for the fiscal year ended June 30, 2020. Note 6 herein reflects the updated maturities of lease liabilities as of September 30, 2020, subsequent to renegotiations with our landlords and termination of rejected leases.

Critical Accounting Policies

This Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our unaudited interim consolidated financial statements, which have been prepared pursuant to the rules and regulations of the SEC. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of certain assets, liabilities, sales and expenses, and related disclosure of contingent assets and liabilities. On a recurring basis, we evaluate our significant estimates which are based on historical experience and on various other assumptions that we believe are reasonable under the circumstances. Actual results may differ materially from these estimates.

Other than as described in Note 1 of our unaudited consolidated financial statements, as of September 30, 2020, there were no changes to our critical accounting policies from those listed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2020.

Under the retail inventory method, permanent markdowns result in cost reductions in inventory at the time the markdowns are taken. We also utilize promotional markdowns for specific marketing efforts used to drive higher sales volume and customer transactions for a specified period of time. Promotional markdowns do not impact the value of unsold inventory and thus do not impact cost of sales until the merchandise is sold. Markdowns and damages during the first quarter of fiscal 2021 were 4.1% of sales compared to 5.3% of sales for the same period last year. If our sales forecasts are not achieved, we may be required to record additional markdowns that could exceed historical levels. The effect of a 0.5% markdown in the value of our inventory at September 30, 2020 would result in a decline in gross profit and diluted income per share for the first quarter of fiscal 2021 of \$0.5 million and \$0.01, respectively.

For a further discussion of the judgments we make in applying our accounting policies, see Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the fiscal year ended June 30, 2020.

Recent Accounting Pronouncements

Please refer to Note 1 of our unaudited consolidated financial statements for a summary of recent accounting pronouncements.

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws and the Private Securities Litigation Reform Act of 1995, which are based on management's current expectations, estimates and projections. These statements may be found throughout this Quarterly Report on Form 10-Q, particularly in this "Management's Discussion and Analysis of Financial Condition and Results of Operations," among others. Forward-looking statements typically are identified by the use of terms such as "may," "will," "should," "expect," "anticipate," "believe," "estimate," "intend" and similar words, although some forward-looking statements are expressed differently. You should consider statements that contain these words or words that state other "forward-looking" information carefully because they describe our current expectations, plans, strategies and goals and our beliefs concerning future business conditions, future results of operations, future financial positions, and our current business outlook. Forward looking statements also include statements regarding the proposed transactions contemplated by the proposed Purchase and Sale Agreement, the proposed New ABL Commitment Letter, the proposed Backstop Commitment Letter, the proposed Amended Plan and the proposed Amended Disclosure Statement, the Company's plans with respect to the Chapter 11 Cases, the Company's plan to continue its operations while it works to complete the Chapter 11 process, the Company's debtor-in-possession financings, the Company's ability to continue as a going concern, the Company's plans for store closures and lease renegotiations, financial projections and other statements regarding the Company's proposed reorganization, strategy, future operations, performance and prospects, sales and growth expectations, our liquidity, capital expenditure plans, our inventory management plans and merchandising and marketing strategies.

Readers are referred to Part 1, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended June 30, 2020 and Part II, Item 1A "Risk Factors" of this Current Report on Form 10-Q for examples of risks, uncertainties and events that could cause our actual results to differ materially from the expectations expressed in our forward-looking statements. These risks, uncertainties and events also include, but are not limited to, the following:

- our ability to obtain timely Bankruptcy Court approval with respect to motions filed in the Chapter 11 Cases;
- the Bankruptcy Court's rulings in the Chapter 11 Cases and the outcome of the Chapter 11 Cases generally;
- our ability to comply with the restrictions imposed by the terms of the Company's debtor-in-possession financing agreements, including the Company's ability to maintain certain minimum liquidity requirements and obtain approval of a plan of reorganization or sale of all of its assets by agreed upon deadlines;

- *the length of time that we will operate under Chapter 11 protection and the continued availability of operating capital during the pendency of the Chapter 11 Cases;*
- *our ability to continue to operate our business during the pendency of the Chapter 11 Cases;*
- *employee attrition and our ability to retain senior management and other key personnel due to the distractions and uncertainties;*
- *the effectiveness of the overall restructuring activities pursuant to the Chapter 11 Cases and any additional strategies we may employ to address our liquidity and capital resources, including our ability to attain additional financing;*
- *the actions and decisions of creditors and other third parties that have an interest in the Chapter 11 Cases;*
- *risks associated with third parties seeking and obtaining authority to terminate or shorten the Company's exclusivity period to propose and confirm one or more plans of reorganization, for the appointment of a Chapter 11 trustee or to convert the Chapter 11 proceeding to a Chapter 7 proceeding;*
- *increased legal and other professional costs necessary to execute the Company's restructuring;*
- *our ability to maintain relationships with suppliers, customers, employees and other third parties as a result of the Chapter 11 Cases;*
- *the trading price and volatility of the Company's common stock and the effects of the delisting from The Nasdaq Stock Market ("Nasdaq");*
- *litigation and other risks inherent in a bankruptcy process;*
- *the effects and length of the COVID-19 pandemic;*
- *changes in economic and political conditions which may adversely affect consumer spending;*
- *our ability to identify and respond to changes in consumer trends and preferences;*
- *our ability to mitigate reductions of customer traffic in shopping centers where our stores are located;*
- *our ability to continuously attract buying opportunities for off-price merchandise and anticipate consumer demand;*
- *our ability to obtain merchandise on varying payment terms;*
- *our ability to successfully manage our inventory balances profitably;*
- *our ability to effectively manage our supply chain operations;*
- *loss of, disruption in operations of, or increased costs in the operation of our distribution center facility;*
- *unplanned loss or departure of one or more members of our senior management or other key management;*
- *increased or new competition;*
- *our ability to maintain and protect our information technology systems and technologies and related improvements to support our growth;*
- *increases in fuel prices and changes in transportation industry regulations or conditions;*
- *increases in the cost or a disruption in the flow of our imported products;*
- *changes in federal tax policy including tariffs;*

- *the success of our marketing, advertising and promotional efforts;*
- *our ability to attract, train and retain quality employees in appropriate numbers, including key employees and management;*
- *increased variability due to seasonal and quarterly fluctuations;*
- *our ability to protect the security of information about our business and our customers, suppliers, business partners and employees;*
- *our ability to comply with existing, changing and new government regulations;*
- *our ability to manage risk to our corporate reputation from our customers, employees and other third parties;*
- *our ability to manage litigation risks from our customers, employees and other third parties;*
- *our ability to manage risks associated with product liability claims and product recalls;*
- *the impact of adverse local conditions, natural disasters and other events;*
- *our ability to manage the negative effects of inventory shrinkage;*
- *our ability to manage exposure to unexpected costs related to our insurance programs;*
- *increased costs or exposure to fraud or theft resulting from payment card industry related risk and regulations; and*
- *our ability to maintain an effective system of internal controls over financial reporting.*

The forward-looking statements made in this Form 10-Q relate only to events as of the date on which the statements are made. Except as may be required by law, we disclaim obligations to update any forward-looking statements to reflect events or circumstances after the date on which the statements were made or to reflect the occurrence of unanticipated events. Investors are cautioned not to place undue reliance on any forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not required.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and our principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2020. The term “disclosure controls and procedures,” as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934, as amended (the “Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation of our disclosure controls and procedures as of September 30, 2020, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were not effective at the reasonable assurance level due to the material weakness in internal control over financial reporting described below.

During our fiscal 2020 year-end closing process, we identified a material weakness in internal control related to ineffective assessment of impairment of long-lived assets. Management’s estimation of fair value did not appropriately utilize market participant assumptions. The material weakness resulted in a material misstatement in our June 30, 2020 financial statements which was identified and corrected prior to filing. There were no restatements of prior period financial statements and no change in previously released financial results were required as the result of the control deficiency.

Changes in Internal Control Over Financial Reporting

We are committed to maintaining a strong internal control environment and implementing measures designed to help ensure that control deficiencies contributing to the material weakness are remediated. We are designing and implementing our remediation plan for the material weakness in internal control over financial reporting described above, which includes steps to improve the operation and monitoring of control activities and procedures associated with our impairment assessment. We will consider the material weakness remediated after the applicable controls operate for a sufficient period of time, and management has concluded, through testing, that the controls are operating effectively.

Other than as described above, there were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2020 that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

Item 1. Legal Proceedings

Information related to the Chapter 11 Cases that were filed on May 27, 2020 is included in Note 1 in the Notes to Consolidated Financial Statements.

In addition, we are involved in legal and governmental proceedings as part of the normal course of our business. Reserves have been established when a loss is considered probable and are based on management's best estimates of our potential liability in these matters. These estimates have been developed in consultation with internal and external counsel and are based on a combination of litigation and settlement strategies. Management believes that such litigation and claims will be resolved without material effect on our financial position or results of operations.

Item 1A. Risk Factors

We believe there have been no material changes from our risk factors previously disclosed in Part 1, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended June 30, 2020.

Item 6. Exhibits

Exhibit Number	Description
3.1.1	<u>Certificate of Incorporation of Tuesday Morning Corporation (the “Company”)(incorporated by reference to Exhibit 3.1 to the Company’s Registration Statement on Form S-4 (File No. 333-46017) as filed with the Securities and Exchange Commission (the “Commission”) on February 10, 1998)</u>
3.1.2	<u>Certificate of Amendment to the Certificate of Incorporation of the Company dated March 25, 1999 (incorporated by reference to Exhibit 3.3 to the Company’s Registration Statement on Form S-1/A (File No. 333-74365) as filed with the Commission on March 29, 1999)</u>
3.1.3	<u>Certificate of Amendment to the Certificate of Incorporation of the Company dated May 7, 1999 (incorporated by reference to Exhibit 3.1.3 to the Company’s Form 10-Q (File No. 000-19658) as filed with the Commission on May 2, 2005)</u>
3.2	<u>Amended and Restated Bylaws of the Company dated September 16, 2014 (incorporated by reference to Exhibit 3.2 to the Company’s Form 8-K (File No. 000-19658) as filed with the Commission on September 19, 2014)</u>
31.1	<u>Certification by the Chief Executive Officer of the Company pursuant to Section 302 of the Sarbanes-Oxley Act of 2002</u>
31.2	<u>Certification by the Chief Financial Officer of the Company pursuant to Section 302 of the Sarbanes-Oxley Act of 2002</u>
32.1	<u>Certification of the Chief Executive Officer of the Company pursuant to 18 U.S.C §1350, adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 *</u>
32.2	<u>Certification of the Chief Financial Officer of the Company pursuant to 18 U.S.C §1350, adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 *</u>

CERTIFICATION

I, Steven R. Becker, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Tuesday Morning Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
